In principle, we never transmit your personal data to third parties without your express permission or request. In individual cases, your personal data may be published on the website of the participating contest.

In addition, we work with partners who are essential participants in the contract fulfilment as commissioned order processors (especially IT service providers) and as contractual partners (especially payment service providers). These partners receive the data that is necessary for the fulfilment of their

respective services and they are therefore not external third parties. All order processors are contractually obliged to handle your data confidentially and solely in the context of their service provision.

Furthermore, regarding the storage duration, the legal expiry periods are to be observed; these can amount 30 years in some cases according to the Austrian General Civil Code (ABGB).

IP addresses:

At each consultation of our website, the access time and the visitor's end device and IP address are transmitted to the web server.

For security reasons (for example protection against hacker attacks) and to prevent misuse (multiple submissions), we save the IP addresses of all visitor requests. The records created are however only used to follow-up on security breaches or cases of misuse and only consulted in suspected cases. Additionally, the IP addresses are not saved in the long term, instead they are deleted after 4 weeks.
